EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Armina Matthews on June 29, 2006.

The application has been amended as follows:

Claims 1-6, 19-31, 33, and 37 are cancelled.

The following is an examiner's statement of reasons for allowance: after careful analysis for definiteness of applicants' arguments with respect to open ended numerical ranges dependently claimed and review of MPEP 2173.05(c), it is believed that the claimed open ended range is not indefinite because both the specification and claimed invention limit the range. This limit is considered to be definite and not open ended.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).
